

ValueSeal™ Sealing Films

The most economical film for general laboratory use

i Application:

General laboratory use, short-term storage, incubation and ELISA

🌡️ Temperature Range:

-40°C to +120°C

CATALOG #	DESCRIPTION	QUANTITY
SP-VS-100	ValueSeal	100 Sheets

Features and Benefits

- Provides a secure seal and is easy to remove
- Rigid polyester film features good clarity and easy handling
- Features smaller dimensions and a single non-perforated end-tab to provide a more cost-effective alternative
- Protects samples from evaporation, external contamination, dust and particulates
- Can be used as a temporary seal while awaiting further processing

Bundling Opportunities

- ELISA plates
- Plate washers
- Plate readers
- Pipettors and pipet tips
- ELISA reagents and buffers
- Reservoirs
